FOR RELEASE AT 8:30 AM EDT, THURSDAY, JUNE 16, 2022

MONTHLY NEW RESIDENTIAL CONSTRUCTION, MAY 2022

Release Number: CB22-100

June 16, 2022 - The U.S. Census Bureau and the U.S. Department of Housing and Urban Development jointly announced the following new residential construction statistics for May 2022:

Building Permits

Privately-owned housing units authorized by building permits in May were at a seasonally adjusted annual rate of 1,695,000. This is 7.0 percent below the revised April rate of 1,823,000, but is 0.2 percent above the May 2021 rate of 1,691,000. Single-family authorizations in May were at a rate of 1,048,000; this is 5.5 percent below the revised April figure of 1,109,000. Authorizations of units in buildings with five units or more were at a rate of 592,000 in May.

Housing Starts

Privately-owned housing starts in May were at a seasonally adjusted annual rate of 1,549,000. This is 14.4 percent (±8.9 percent) below the revised April estimate of 1,810,000 and is 3.5 percent (±10.7 percent)* below the May 2021 rate of 1,605,000. Single-family housing starts in May were at a rate of 1,051,000; this is 9.2 percent (±11.0 percent)* below the revised April figure of 1,157,000. The May rate for units in buildings with five units or more was 469,000.

Housing Completions

Privately-owned housing completions in May were at a seasonally adjusted annual rate of 1,465,000. This is 9.1 percent (±22.6 percent)* above the revised April estimate of 1,343,000 and is 9.3 percent (±19.0 percent)* above the May 2021 rate of 1,340,000. Single-family housing completions in May were at a rate of 1,043,000; this is 2.8 percent (±13.6 percent)* above the revised April rate of 1,015,000. The May rate for units in buildings with five units or more was 417,000.

The June report is scheduled for release on July 19, 2022. View the full schedule in the Economic Briefing Room: < www.census.gov/economic-indicators/. The full text and tables for this release can be found at www.census.gov/construction/nrc/.

EXPLANATORY NOTES

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take three months to establish an underlying trend for building permit authorizations, six months for total starts, and six months for total completions. The statistics in Table 1 in this release are based on a non-probability sample and not subject to sampling error. They are, however, still subject to nonsampling error. On average the total quantity response rate for these estimates is 74.8%. The statistics in Tables 2-5 in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent (±3.2 percent) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percentage change is likely to have occurred. All ranges given for percentage changes are 90 percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percentage changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised 2.2 percent or less. Explanations of confidence intervals and sampling variability can be found on our website. <www.census.gov/construction/nrc/how the data are collected/>

API

The Census Bureau's application programming interface lets developers create custom apps to reach new users and makes key demographic, socio-economic and housing statistics more accessible than ever before.

www.census.gov/developers/

FRED Mobile App

Receive the latest updates on the nation's key economic indicators by downloading the FRED App < https://fred.stlouisfed.org/fred-mobile/ for both Apple and Android devices. FRED, the signature database of the Federal Reserve Bank of St. Louis, now incorporates the Census Bureau's 13 economic indicators.

###

* The 90 percent confidence interval includes zero. In such cases, there is insufficient statistical evidence to conclude that the actual change is different from zero.
